

## Crete: Home of the cosmonauts

After the successful visit of the famous Russian cosmonaut Yuri Malenchenko, two more Russian cosmonauts are expected to visit Anemos Luxury Grand Resort in Georgiopolis of Chania in the upcoming days. They consider Crete their second home that is the reason they choose this destination for the physical rehabilitation.

Mr Alexey Ovchinin and Mr Oleg Kripochka are expected to visit Anemos Luxury Grand Resort at the end of September. They will visit Crete in order to follow an intensive program of physical rehabilitation after their visit to space. They stayed at the space station Soyuz TMA- 20M for 172.

As Yuri Malenchenko and his medical team mentioned after their visit, Crete is considered the ideal destination for relaxation, physical and mental recuperation. All these benefits for the human body are significantly important that is why Crete is considered one of the best destinations for cosmonauts.

Anemos Luxury Grand Resort

Anemos Luxury Grand Resort is a brand new 5-star luxury hotel in Georgiopolis of Chania in the north-western part of Crete. It is only 36 km away from the city of Chania and 19 km away from the city of Rethymnon. It offers a magnificent view of “Lefka Ori” and overlooks the Cretan Sea.
